Velocity Made Good

Event - Velocity Made Good ↻

When	Fri, 30. October 2026, 20:30 h
Category	Live Music in Rotterdam

Description

Dutch duo Velocity Made Good comes to Roodkapje West with a live set built around breakbeat, electro, synthesizers and drums.

The Groningen act draws on the force of rock and the precision of electronic music, with influences ranging from Deep Purple to LCD Soundsystem and The Chemical Brothers. Their live setup keeps things deliberately physical, using synths and drums to create a sound that is raw, rhythmic and tightly controlled.

Velocity Made Good arrives in Rotterdam with a new EP produced by Josh Baxter of PVA. After being named a highlight of Popronde 2023 by 3voor12, the duo expanded its reach with tours through the Balkans and Portugal in 2024, followed by Scandinavia.

Listeners of The Chemical Brothers, AK/DK and Model/Actriz should find plenty to enjoy here.
