## Description

Dublon comes to BIRD for a night of deep grooves, jazz-infused house and late-night energy. The fast-rising DJ and producer has quickly built a reputation in the international jazz-house scene, blending smooth jazz textures with driving house rhythms and soulful club sounds.

In less than two years, Dublon has played across Europe, including London’s Jazz Café. His crossover style connects jazz lovers, dancers and electronic music fans in the same room, with sets that feel intimate but still firmly aimed at the dancefloor.

BIRD presents this as a live show rather than a regular club night, which makes sense for an artist working right where live jazz culture and electronic club music meet. Expect rhythm, warmth and forward-thinking sounds in BIRD’s intimate setting.
