## Description

PISS come to Rotown with a blunt dose of hardcore punk and noisecore. The Vancouver band does not seem especially worried about listener comfort, which is probably the point. Expect raw songs, sharp edges and lyrics that land straight in your face.

Their music draws from personal stories rooted in female experience, delivered without softening the blow or making things tidier than they are. After playing Rotterdam during Left of the Dial 2025, PISS now return for their own headline show at Rotown.

Fans of **G.L.O.S.S.**, **Warthog**, **Krimewatch** and **Bombstrap** should know exactly what kind of beautiful chaos this is. Start with time loop at hot slit.
